

## **CAPTRAIN POLSKA:**

**YOUR LOGISTICS SPECIALIST FOR  
CENTRAL AND EASTERN EUROPE**

The top of the page features a background image of a train car with the word 'CAPTRAIN' in large, bold, black letters. Several green circles of varying sizes are scattered across the white background. A large green rectangular block with a diagonal cutout at the bottom right corner is positioned over the image, containing the main title.

# STRONG ON THE RAILS

## En route for your goods in Central and Eastern Europe

Captrain Polska Sp. z o.o., founded in 2006 and based in Wrocław, provides comprehensive expertise for rail transport services within, to and from Central and Eastern Europe. Awarded the required safety certification in 2008, we've been conducting rail freight transport operations in Poland ever since. Together with the Captrain Deutschland Group, we also offer cross-border rail transport along the East-West transport corridor. Our cooperations with railways in Lithuania,

Belarus and Ukraine mean we can also offer customised rail logistics to and from Eastern Europe.

We serve a variety of industries, including steel, chemical, construction and energy. We carry your goods to their destination safely, reliably and on time. Our teams of professionals have proven know-how and years of experience in many markets.

Our driving force? Your satisfaction.

**In 2018 Captrain Polska  
generated turnover of  
€ 23m.**

# **LOGISTICS WITHOUT BOUNDARIES**

**Captrain Polska – a French SNCF Logistics Group company – works with Captrain Deutschland to move your goods around Europe. We offer boundless possibilities for the rail transport of your goods.**

# OUR SERVICES FOR YOU

- » Railway transport of bulk commodities: fuels, chemicals (including hazardous materials), steel, aggregate, coal and automotive.
- » Specialised transport: railway construction machines, oversized shipments and rails (30m / 60m / 90m / 120m)
- » Combined transport
- » Shunting services
- » Maintenance of rolling stock
- » Training for locomotive drivers
- » Consulting services concerning transport in Europe.

**One of just a handful of private rail freight operators, Captrain Polska also offers comprehensive transport services across the Lithuania, Belarus and Ukraine borders.**

# THE RIGHT RESOURCES FOR YOUR SUCCESS

Rolling stock is crucial for the quality and cost effectiveness of railway transport. We're an expert in efficient rail logistics, and part of a group active across Europe, so we have the resources you need – whether it's freight cars or locomotives.

The Captrain Polska fleet includes electric locomotives, as well as multisystem, diesel and shunting engines. Our freight cars can be adapted to best meet your individual needs. This means: optimal utilisation, short turnaround times, and safe, reliable transport.
